**Tribute from Brian Clifford**

Relation: Skookumchuck Pulpmill

Don was a great employee at the pulp mill reflecting strong attributes of a very knowledgeable and capable Power Engineer. He was a mentor for the young Engineers and always ready to address the unforeseen. He steered the Power House through many challenges and we are indebted to you Don. Thanks Brian

**Tribute from Deanna (Pearson) Hendry**

Relation: Friend

My earliest memories of Donnie are from elementary school and as backyard neighbours. We'd bump into each other when I was up visiting my parents, and in the last few years when I needed help keeping track of my aging father, Don and Gwen were always willing to check on him. Don often

stopped to chat with us over the last few years as our visits came more often and Dad declined; and especially once he found they suffered the same disease. A nicer man would be hard to find! Our hearts are with you Gwen, and the rest of the family, at this very sad time.

Relation: cousin

Gwen, Neil and families

My heart is with you today as you celebrate Don's life. A big man with a big heart. Mention a story about Don it always involved fun.

He let me drive his brand new yellow Chrysler car. Wow!

He took me on a motorcycle ride that still scares me. The more I laughed and screamed the worse the corners got I swear I could touch the ground.

He and Neil drug Dad out, late one night, to check out disco dancing. Dad talked lots of being the old rooster with all the chicks.

I will always remember Don as a cousin who wanted to show you a good time. A few Julyfests to be exact.

A big man with a big smile and a big heart. He was one of a kind. Never to be forgotten  
RIP Cousin.
