Tribute from Russell Robertson

Relation: Patient and family friend.

After reading the warm tribute for Dr Backman, with a many "Dad" in the wording, its apparent what he meant to his children. I remember Dr Backman from care as a family physician. When I was young, he had made a house visit to our family home to care for my mother. Who does that? My partner is a Dr, we shared this special care, we had received in Kimberley, after explaining to her that there was at least 3 doctors I know of that made house visits. She said, that is an trait, that is surely missed in today's world. He must have been a welcomed doctor. I remember the house that was built down in Rotary Drive, who's house was that? Dr Backman built that house, it was truly a stand out home. What a truly accomplished empathetic man he was, a cherished father, community leader, comrade to all that new him. It sounds like he held his dear Janet close by his side. Being such an academic

achiever, yet enjoying the small things in life. Kimberley was blessed to have such a gracious Doctor. My condolences to the family which I also grew up in the same generation. I have played Woody Guthrie's song..... thank you Dr Keith Backman..

Tribute from Michael and Jurate Haiduk

Relation: We worked with him

Our sincere condolences to the Backman and Passmore families. Keith touched many lives in this community. It was a pleasure to know and work with him.

Tribute from Doreen Carrick

Relation: As friends met through his son Mark and daughter in law Elana

It is with great sadness we send our most heartfelt condolences to Dr Backman's family, specifically to Mark whom I knew so well years ago and his beloved family and to Michelle and her family. I was so blessed a summer ago to actually see and talk to him at Walmart, yes looking at plants. He hadn't changed much in the many many years since I had seen him last. That's how I will remember him, smiling, entertaining and so very thoughtful. Rest in Peace Doctor.
